We create welcoming spaces where children, adults and families can find clarity, connection and practical next steps without long waits or high costs.

Our cafés, workshops and early-help pathways are built on compassion, inclusion and over 30 years of specialist SEND experience.

**We exist to reduce barriers, empower our community, and ensure no one has to navigate learning differences alone.**

- Our community cafés reduce isolation.
- Our workshops build confidence.
- Our screening pathways create clarity in moments when it's most needed.

**We measure impact not only in numbers, but in the relief, reassurance and progress people tell us they feel after meeting us.**

# PARTNER WITH US

## WHY YOUR PARTNERSHIP MATTERS

**Community venues like yours play a vital role in creating safe, welcoming places where people can come together, feel supported and find the help they need. By opening your doors to our Dyslexia Cafés and workshops, you become part of a shared mission to support children, adults and families who may otherwise struggle to access early help.**

Our presence in your space does more than run an event – it creates connection. Families discover a venue that cares, adults find a place they trust, and visitors often return to explore the other activities, services and community groups you already offer.

**Together, we extend your reach, deepen your impact and help build a community where everyone feels seen, supported and welcome.**

By hosting us, you are not just offering space – you are offering hope, clarity and belonging to people who need it. And in doing so, your venue becomes a trusted part of their journey.

# HOW YOUR VENUE CAN HELP

**Your venue can play a vital role in bringing early-help dyslexia and dyscalculia support directly to the heart of our community. By partnering with us, you provide a safe, welcoming and inclusive space where people can access guidance, connection and clarity, often for the first time.**

Hosting our Dyslexia Cafés and workshops is simple, low-impact and fully supported by our trained team. You offer the space; we bring the expertise, volunteers and resources. Together, we create an environment where people feel calm, understood and able to take their next steps with confidence.

**Every session you host helps remove barriers, reaches those who feel isolated, and strengthens the sense of belonging within your community.**

## **Your venue can help by providing:**

- A safe, accessible room for approximately 2–2.5 hours (usually on a Saturday Morning)
- Basic seating and tables for welcome, conversation and workshop areas
- Permission (and facility) to serve light refreshments (where appropriate)
- Clear access to fire exits and venue safety information
- A welcoming environment that reflects the inclusive ethos of your space

**That's it, we'll take care of the rest. We handle setup, delivery, volunteers, safeguarding, equipment and pack-down.**

## This is how your space helps this community grow.

By offering us a home for just a few hours, you help unlock support that can change lives - and strengthen your venue's role at the heart of the community.

# WHAT A DYSLEXIA CAFÉ LOOKS LIKE

A Dyslexia Café is a relaxed, community-focused drop-in session designed to offer reassurance, clarity and practical guidance. The atmosphere is warm, calm and inclusive. It's more like a friendly community gathering than a formal event.

Visitors are welcomed by our volunteers, invited to take a seat, enjoy a drink and join gentle conversations with others who may share similar experiences. Some come with specific questions; others simply want to feel part of a supportive community.

**Throughout the session, our specialist team offers one-to-one guidance in open, visible spaces, helping families and adults gain understanding and clear next steps at a pace that feels right for them.**

## What You'll See in the Room

### **A welcoming, low-pressure environment:**

- People chatting in small groups
